

PittMed Professionalism Accolade

CONGRATULATIONS!

J. Michael Beckham, MD

PGY2 Resident
Department of Medicine

"I was very fortunate to have Michael (John) as my senior resident. He is an engaging, knowledgeable teacher and helped me think critically about my patients while also ensuring I felt like a valued member of the team... Michael also prioritized my learning as a medical student, ensuring I saw a variety of diagnoses [and] also had [an] opportunity to interact with patients of particular interest to me. He was always available to ask questions, taught me valuable skills such a how to review a patient's overnight telemetry, and never missed an opportunity to teach on rounds. And despite the number of patients he was caring for, Michael always demonstrated wonderful bedside manner and empathy towards patients. His demonstration of professionalism, especially as a new senior resident, was exemplary and made my internal medicine that much more enjoyable."
