

PittMed Professionalism Accolade

CONGRATULATIONS!

Benjamin Carnahan, MD
Resident, PGY1
Department of Family Medicine

“During my time at UPMC St. Margaret hospital, this resident consistently included me in the team, and shared advice and constructive criticism with me on a daily basis. He knew I was very nervous about preparing for future rotations/intern year...and therefore took a specific interest in preparing me for my AI/answering all questions that I had. He lead by example as well... and always volunteering when new/unexpected/unattractive work arose. Nothing was beneath him. Thank you Ben!”
