

# PittMed Professionalism Accolade

## CONGRATULATIONS!

Sylvia S. Choi, MD  
Associate Professor  
Department of Pediatrics

**"I just wanted to commend Dr. Choi on creating a safe and welcoming environment for our online bystander training as incoming MS3's. Considering the format and the content, this zoom encounter called for a skillful and warm leader. Dr. Choi delivered that for us. I really appreciated her personal anecdotes and the way that she involved all of us in the discussion. At the end of the discussion she was very open to feedback and made us feel that we truly played a key part in the iterative process of curriculum reform. I just wanted to say that we really appreciated her sincerity, it came across even the most awkward of formats. "**
