

PittMed Professionalism Accolade

CONGRATULATIONS!

Jennifer de Groot, MD

Resident, PGY-2

Department of Obstetrics, Gynecology
& Reproductive Sciences

“Dr. Anhut [de Groot] had an important oral examination in the afternoon that she had clearly prepared for extensively. A patient encounter that morning, however, was running very late. With less than 5 minutes to spare, she could have prematurely ended the patient encounter, as she had to go to her examination, but instead chose to continue with an extended (and clinically appropriate) workup for the patient. I witnessed this myself, and I was impressed by how committed she was to patient care, even at the possibility of being reprimanded by a supervisor.”
