

PittMed Professionalism Accolade

CONGRATULATIONS!

Kristen Ehrenberger, MD
MEDICINE-PEDIATRICS RESIDENT
Departments of Medicine and Pediatrics

"Kristen was one of the most supportive senior residents I have had the privilege of working with throughout my third-year of medical school. She truly advocated for and empowered her medical students and allowed us ample opportunities to teach the team, formulate plans, educate patients and families, and continue to grow and thrive as medical students. She is organized, proactive, efficient, as well as a phenomenal leader and team player - she kept the team on time for daily rounds, while still managing to squeeze in valuable teaching opportunities while walking from room to room. I can only hope to one day emulate what I have learned from Kristen once I am a resident myself!"
