

PittMed Professionalism Accolade

CONGRATULATIONS!

Jacqueline Estevez, MD
Fellow Year 1

"Jackie Estevez was absolutely the most helpful fellow/resident I have worked with during my third year. She took a personal interest in my education and wanted to ensure that I got everything I could put my Liver transplant rotation and made me feel like a real caregiver. Her willingness to answer questions and perfect notes will without a doubt help me for the rest of Med school and beyond. She deserves all the accolades for being a brilliant clinician, patient advocate, and educator."
