

PittMed Professionalism Accolade

CONGRATULATIONS!

Catherine Go, MD
T32 Postdoctoral Fellow
Department of Surgery

"Dr. Go upholds the highest standards of professionalism as witnessed by her countless interactions with patients, OR staff, colleagues, and medical students. Despite a busy schedule, she always remembered people's names, devoted time to make patients feel cared for, and empowered students during cases. She particularly deserves recognition for going above and beyond in the care for a particular patient when coordinating dressing changes, blood draws, and procedures, as she was aware of not just the physical, but the emotional needs of the patient."
