

PittMed Professionalism Accolade

CONGRATULATIONS!

Yeahwa Hong, MD

Resident, PGY3

Department of Surgery

“Dr. Hong was one of my senior residents during my time at UPMC St. Margaret. Now that my general surgery rotation is complete I can say that I have worked with numerous residents...but Dr. Hong without question took the most interest in my success in the OR. He took time during a case to work through some specific skills, and gave my pointers on peri-operative career/career planning in between cases.

... He made me feel included, and gave me the benefit of the doubt at all the times that I needed support. Thank you Dr. Hong.”
