

PittMed Professionalism Accolade

CONGRATULATIONS!

Maria Lanyi

Medical Student, MS4

“Maria called up every pharmacy in Pittsburgh and found two that were offering the COVID vaccine for healthcare workers. She then told the entire class about both, giving us options and valuable information at a time many of us were unsure of what was going to happen with vaccinations! Major major props to Maria for being so proactive and then sharing all this information selflessly with everyone! She is truly amazing and deserves recognition for this selfless advocacy and hard work!”
