

PittMed Professionalism Accolade

CONGRATULATIONS!

Elise Martin, MD, MS
Associate Medical Director of
Infection Prevention and Hospital
Epidemiology
Division of Infectious Diseases
Department of Medicine

"Dr. Elise Martin has been the brilliant and calming advocate and guide for our medical students throughout the pandemic.

Dr. Martin has made herself available at all hours of the day or night, weekdays and weekends, to support us as we field student exposures and questions. She answers emails and texts promptly... She always says "yes" to last minute town halls, leadership meetings, urgent conference calls, and to editing changing-by-the-minute updates... She has offered her email address directly to students to make sure that they know that UPMC Infection Prevention is always there for them. Most importantly, she is a truly inspirational role model in the way that she does all of this with unequalled patience and kindness.

Our ability to safely care for our medical students *and* our patients through this pandemic has been made possible because of Dr. Martin. She represents the best of our profession and our faculty at UPSOM."
