

# PittMed Professionalism Accolade

## CONGRATULATIONS!

**Carissa Pokrant, DO**

Resident, PGY2

Department of Family Medicine

**“Dr. Pokrant was my first resident I had the privilege of working with on my first clerkship in pediatrics. She was an incredible patient advocate and took a significant amount of time working with me on how to approach family centered rounds. She was an amazing teacher and helped me to understand bigger picture management pearls. She promoted my growth as a student and always made time to give feedback on my notes and presentations each day. As an FM resident on rotation from UPMC Horizon, she went above and beyond for a team brand new to her and committed herself to creating a positive learning environment.”**
