

# PittMed Professionalism Accolade

## CONGRATULATIONS!

Jason Rosenstock, MD

Interim Associate Dean for  
Medical Education  
Professor of Psychiatry

**"Dr. Rosenstock's appointment as Interim Associate Dean for Medical Education has resulted in a dramatic improvement in the learning environment. He has literally transformed the culture into an open-door policy and tangible changes are occurring faster than I have ever seen during my time at Pitt. The positive impact of his leadership style is palpable upon entering OMED. His commitment to medical students is evident by his relentless pursuit of advances in medical education while incorporating feedback and suggestions from students. In addition to his remarkable efforts as Associate Dean, he continues to mentor psychiatry applicants and prepare them for everything they will need to be successful in the match. Dr. Rosenstock is a tremendous asset to medical students and the entire UPSoM community."**
