

PittMed Professionalism Accolade

CONGRATULATIONS!

Kathleen Wolff, MSN, CRNP

Nurse Practitioner
Children's Hospital of UPMC

“On my NICU rotation at CHP, I worked with a ton of the APPs, but Kathleen specifically stood out as someone who went above and beyond to teach me and find opportunities for me to get the most out of my rotation. On one of my first days on service, Kathleen spent nearly an hour walking me through basic calculations for our baby's feeds, fluids, and medications. Soon after, she encouraged me to accompany our babies to their procedures, which opened up the opportunity to participate in their surgeries for the rest of the month! With every new patient presentation, she spent time explaining our protocols for workup and management. She taught me how to consent parents for certain interventions and was available during these discussions to answer questions and offer support. These are only some of the many lessons and opportunities Kathleen provided, and she was singlehandedly the best teacher I had during my month on service.”
