

# PittMed Professionalism Accolade

## CONGRATULATIONS!

**"We would like to recognize the tireless efforts of Cristine Oh and Grace Zhang, who first approached us in April 2020 to discuss their concerns about racial discrimination against Asian-Americans in the setting of COVID-19. Since our initial meeting, they have rapidly grown into skilled leaders who have crafted an articulate mission statement, mobilized their fellow students, organized faculty mentorship, and engaged medical school leadership in a thoughtful and mature way, all within a span of three weeks. It is impressive that they have accomplished all of this while studying for shelf exams..."**

**Cristine and Grace have gone above and beyond to make Pitt Med a better place for all students. We are proud of their accomplishments, courage, and leadership skills. We would love to honor them with the recognition they deserve and allow the broader institution to learn from and benefit from knowing of their efforts."**
